BAKERS'

CHOICE

OPTION TWO: CHRISTMAS TREE

**BUILD IT
YOUR WAY**

Follow this build guide
or use your imagination
to build it your way!

WHAT'S INCLUDED

5x

4x

1x

1x

1x

WHAT YOU WILL NEED

- 1 x Teaspoon
- 1 x Microwave
- 1 x Microwave safe bowl
- Baking paper
- A plate or board to display your creation
- Friends or family!

1

Unwrap and organise.

Unwrap the KITKAT bars and separate into two groups: Milk Chocolate and White Choc.

2

Snap into half-fingers.

Carefully snap or cut the bars into individual half-fingers.

3

Time to melt!

Use the instructions on the NESTLÉ BAKERS' CHOICE White Choc Melts to prepare the melted choc.

4

Build the bases.

To build the base, take 6x half-fingers & coat one end of each half-finger with the melted White Choc. Join the ends together to form a 'fanned' base. Allow to dry for 1 minute and repeat at least 3 times.

PRO TIP!
Build it your way and mix up the colours.

5

Build more branches.

Repeat the previous step with 4x half-fingers, then 3x, then 2x. These will form the higher, narrower branches.

PRO TIP!
The more you build, the higher the tree!

6

Stack and attach the branches!

Starting with the bases, one-by-one, apply melted White Choc to the centre of each 'fanned' branch, stack and hold in place. Your tree is growing!

PRO TIP!
Build it your way and mix up the colours.

7

Add more magic!

Decorate with SMARTIES and ALLEN'S Spearmint Leaves!

8

Stand back and admire your masterpiece!

Follow the directions on the back of the carton box and dispose of all packaging items into the correct bins.
